- Medical direction including medical authorization/prescription and oversight, and compliance to all federal and state regulations

*Creating a Heartsafe Environment benefits everyone. Rely on the world's best AED in the industry—Cardiac Science AEDs.*

## CREATING HEARTSAFE ENVIRONMENTS JUST GOT EASIER

### Introducing the Cardiac Science Heartsafe Program Management Products.

Cardiac Science is the only company focused exclusively on the creation of Heartsafe Environments. We combine industry leading AED technology with comprehensive AED/CPR training, First Aid/O<sub>2</sub> training and program management services that facilitate and document successful AED deployments and ensure federal and state regulatory compliance.

We offer a complete program management solution—scheduling, coordination, and logistics plus American Heart Association Heartsaver certification and training materials, experienced employee educators, medical authorization/prescription and oversight, and optional post-event consultation. Our program also includes our MasterTrak™ software that provides documentation and access to program information via an E-minder feature. In training, we provide a 1:1 student to manikin ratio to guarantee greater skills retention for class participants.

Whether you need to train your employees, ensure and track compliance, or call for a 24-hour toll-free medical consultation, you can rely on us to help you every step of the way. Cardiac Science is the leader in creating Heartsafe Environments.

To learn more about Cardiac Science AEDs and our Heartsafe Program Management Products, visit our website [www.cardiacscience.com](http://www.cardiacscience.com), or email [info@cardiacscience.com](mailto:info@cardiacscience.com), or call 1.866.289.5649 (USA and Canada only).

CARDIAC SCIENCE

CREATING HEARTSAFE ENVIRONMENTS

Cardiac Science provides program information that ensures compliance and proper record keeping for AED training and program management. MasterTrak is the comprehensive data capture and tracking software that stores facility contacts, training rosters, certification dates, employee records and scores. The MasterTrak E-minder notification system conveys important program information via e-mail. All AED program equipment inventory and location, serial numbers and expiration dates are recorded, and incident and post-event records are available upon request.

## ORDER INFORMATION

PART NUMBER	DESCRIPTION
	<b>PROGRAMS:</b>
9918-001	<b>Quick Response™ AED/CPR Program Management</b> – A comprehensive American Heart Association Heartsaver AED/CPR training and program management product that facilitates successful AED deployments. Whether you need to train your employees, ensure and track compliance, you can rely on us to help you every step of the way. Our program also includes an E-minder feature that provides documentation reports and lets you know when it's time to order additional supplies or schedule training updates. Quick Response Program includes: AHA Heartsaver AED/CPR training for up to 10 people at one location, medical authorization/prescription and direction, and program management.
9918-002	<b>Total Response™ AED/CPR/First Aid/O<sub>2</sub> Program Management</b> – Comprised of all Quick Response Program components, and in addition, students learn basic first aid and emergency oxygen administration. Total Response Program includes: AHA Heartsaver AED/CPR training for up to 10 people at one location, basic first aid and emergency oxygen administration training, medical authorization/prescription and direction, and program management.
	<b>ADDITIONAL COURSES TO BE TAKEN ON THE SAME DAY AND SAME LOCATION:</b>
9919-001	<b>Additional Training (Quick Response)</b> – Additional training for up to 10 people.
9919-002	<b>Additional Training (Total Response)</b> – Additional training for up to 10 people.
9921-001	<b>Blood Borne Pathogens Training</b> – One hour American Safety and Health Institute (ASHI) training as an add on to training schedule. The course is designed to teach students essential information on transmission and disease potential of common blood borne pathogens— in particular, HIV/AIDS, HBV/Hepatitis B, HCV/Hepatitis C. Students learn what constitutes “occupational exposure,” and review standard exposure control precautions, immunization and vaccination options, work practice controls, use of appropriate personal protective equipment, and accidental exposure reporting and follow-up. The American Safety and Health Institute issues a card with yearly updates.
9921-002	<b>First Aid Training</b> – This 3-hour AHA Heartsaver course provides training in basic first aid procedures for medical emergencies and injuries.
9925-001	<b>AED/CPR for Children</b> – This 1-hour AHA Heartsaver course teaches rescuers AED/CPR and choking skills for children ages 1-8.
9925-002	<b>AED/CPR for Infants</b> – This 1-hour AHA Heartsaver course teaches rescuers AED/CPR and choking skills for infants under the age of 1.
	<b>OPTIONS:</b>
9917-001	<b>Site Assessment</b> – An AED specialist can visit your site to determine the best place to deploy an AED and determine how many AEDs are required. A formal analysis and report is provided.
9927-001	<b>Post Event Data Review and Incident Debriefing Service</b> – Call-in support, assistance with download of data and submission of data as required by state regulation within 24 hours of notification. Service per location per year.
9922-001	<b>Online Refresher Training</b> – Provides a review of the AED/CPR training and concludes with an online quiz. Scores are documented in MasterTrak and are available to the site coordinator. Training is available for the original 10 students trained and is available once per year. Students are reminded via E-minder to take the refresher training.
9929-001	<b>AED Instructor Class</b> – This 2-day, 16-hour AHA Heartsaver course teaches adult and pediatric rescue skills. Training includes teaching tips, suggestions on educational design, and a section on support materials.
5592-001	<b>Adult AED/CPR Course Materials for 10 students</b> – Available upon completion of AHA Instructor Course.
5592-002	<b>Adult/Child AED/CPR Course Materials for 10 students</b> – Available upon completion of AHA Instructor Course.
5592-003	<b>Adult/Child/Infant AED/CPR Course Materials for 10 students</b> – Available upon completion of AHA Instructor Course.

\*Offering may differ outside the U.S.
